

You are invited

Local businesses are invited to join the Aroha Kaikorai Valley Business Plus program. It's a four session, hands on education series. This is an opportunity to learn about your local area, waterways and meet other businesses.

WHAT IS BUSINESS PLUS?

Business plus is about connecting business and community with a common goal of trying to improve our local waterways.

A representative from each business (10 seats only) will participate in four practical sessions to learn about the wider Kaikorai area, water, geology and some of the challenges our Kaikorai Stream faces.
