

2050 SUPERCAB

OUR BIGGEST 6M BOAT EVER

The 2050 Supercab remains the bigger brother to the 1850 Supercab but now boasts an even longer cockpit and gunnel length than it had before and is now accompanied by an extended roof aft for added protection and provision for 3-sided clears.

This is our biggest 6m boat yet. It's wider, longer, drier and delivers a massive interior volume where even the biggest statures will feel comfortable at the helm.

* Sportfish package shown with LBT option.
